We often call the creatures in the animal kingdom – «Our little brothers».

But do we know that our brothers love to help us and try their best to be like us?

We explore this theme in this amusing photostory.

*Sometimes our little brothers  
are willing to do a lot more  
for us than we think.*

*For example, these cute little creatures are always ready to help a clumsy girl find a ring dropped into the water.*

*They like to call us  
for breakfast,*

*...or for lunch.*

*They can be taught to epilate our legs.*

*They love to amuse us on the shore,*

*...and under the water.*

*They  
allow us  
to admire  
them,*

*... and even pose  
to take photos  
together.*

*Sometimes, they take care  
that we don't spoil our big...*

*...or small fish.*

*They can also help us in get rid  
of excessive grain,*

*...seeds,*

*...and also other high calorie  
sweet treats.*

*Sometimes  
they attempt  
to imitate us,*

*...to the limits  
of their ability  
of course.*

*Why do we  
wonder if  
even trees  
sometimes  
aspire to  
resemble us?*

*It is possible to play different games with our little brothers. For example this game is called “Guess who is feeding you?”*

*...and with whales we can play  
the game “Who will blink first”.*

*But whales are tricky – they do not blink.  
That is why you, as the loser, will always have  
to jump into the cold water afterwards.*

*In bringing us all that joy our little  
brothers ask almost nothing in return.  
Well, may be a few bits of leaves,*

*...a couple of fish,*

*...or an extra sausage.*

*However, afterwards they allow  
our rough hands to stroke  
their delicate fur,*

*...and do  
many  
different  
things  
with them.*

*Their noble and considerate agreement  
to play the stupid game “corrida”  
means a great deal to us!*

*Overall, our little brothers  
are as good as gold!*

*It is no  
wonder that  
sometimes  
people make  
different  
animal  
sculptures,*

*...which they  
enjoy visiting  
time to time.*
