We often call the creatures in the animal kingdom – «Our little brothers».

But do we know that our brothers love to help us and try their best to be like us?

We explore this theme in this amusing photostory.

*Sometimes our little brothers
are willing to do a lot more
for us than we think.*

For example, these cute little creatures are always ready to help a clumsy girl find a ring dropped into the water.

*They like to call us
for breakfast,*

...or to lunch.

They can be taught to epililate our legs.

They love to amuse us on the shore,

...and under the water.

*They
allow us
to admire
them,*

*... and even pose
to take photos
together.*

*Sometimes, they are genuinely
taking care of our big...*

...or small fish.

*They can also help us get rid of
excessive grain,*

...seeds,

*...and also other high calorie
sweet treats.*

*Sometimes
they attempt
to imitate us,*

*...to the limits
of their ability
of course.*

*There is nothing
to be surprised
about, even trees
sometimes try to
resemble us.*

One can play different games with our little brothers. For example, this game is called “Guess who is feeding you?”

*...and with whales we can play
the game “Who will blink first”.*

*But whales are tricky – they do not blink.
That is why you, as the loser, will always have
to jump into the cold water afterwards.*

*For bringing us all that joy, our little
brothers ask almost nothing in return.
Well, may be a few leaves,*

...a couple of fish,

...or an extra sausage.

*However, afterwards they allow
our rough hands to stroke
their delicate fur,*

*...and do
many
different
things
with them.*

Their noble and polite agreement to play the stupid game “corrida” is worth a lot!

*Overall, our little brothers
are as good as gold!*

It is no wonder that sometimes people make different animal sculptures,

*... which they
enjoy visiting
from time to
time.*
